

# myAXXESS<sup>®</sup> flatOne

## Next Generation Contactless Payment Reader

## RFID reader for flush-mounting in vending machines

### A new dimension in contactless payment:

OBID myAXXESS<sup>®</sup> flatOne from FEIG ELECTRONIC is the world's first EMV Level 1 certified reader that can be flush-mounted in metal ATM, ticket, parking and vending machines. The front panel of the reader offers excellent protection against environmental influences and vandalism (IP65 protection class and IK10 vandalism protection).

### OBID myAXXESS<sup>®</sup> flatOne offers

- ❖ EMV Level 1 certification
- ❖ Supports all common contactless credit cards (Mastercard, Visa, American Express, Discover)
- ❖ ePayment with contactless debit cards
- ❖ Support for NFC applications
- ❖ 4 SAM sockets (only OBID myAXXESS<sup>®</sup> flatOne plus)
